

1993 Jaguar XJ220

£695,000

Overview

Mileage	295 miles
Fuel Type	Petrol
Engine Size	3.5 l
Bodystyle	Coupe
Transmission	Manual
Exterior Colour	LeMans Blue Metallic
Previous Owners	N/A
Registration	220829

Description

Few cars define the supercar era quite like the Jaguar XJ220. Conceived as a technological tour de force and, upon launch, the fastest production car in the world, the XJ220 remains one of the most significant and dramatic supercars ever built. Between 1992 and 1994, just 281 examples were constructed. This magnificent Right-Hand Drive example is number 73 — chassis number 829 — and stands today as what we believe to be one of the very best examples anywhere in the world. With an astonishing 295 miles from new, it is arguably one of the lowest mileage XJ220s to be offered publicly in recent years.

PROVENANCE & HISTORY: Delivered new in the evocatively named Le Mans Blue over Grey leather, this car was originally supplied to renowned historic car specialists Talacrest Limited, who never registered the car and kept it until October 1994. At that point, with just 100 recorded miles, it was sold to Singapore Ferrari concessionaire Hong Seh Motors Pte Limited. While principally Ferrari agents, Hong Seh were highly familiar with the XJ220, having previously supplied six examples to the Brunei Royal Family. The car arrived with its Singaporean custodian in October 1995 and was subsequently registered in Malaysia in 1996, though it has remained stored in Singapore for the majority of its life.

RECOMMISSIONING BY SPECIALIST DON LAW RACING: After a prolonged period in climate-controlled storage, the car was entrusted to globally respected XJ220 authorities Don Law Racing in Newcastle-under-Lyme for sympathetic recommissioning between May 2017 and August 2018. Having acquired all remaining factory XJ220 spares, tooling and patterns directly from Jaguar in 2007, Don Law Racing are uniquely regarded as the foremost specialists for the model worldwide. The works undertaken — totalling nearly £89,000 — included:

Complete engine rebuild Replacement of the entire fuel system (Including New Tanks) Overhaul of all four brake calipers, hubs and dampers Full exterior re-spray in original Le Mans Blue New windscreen and roof screen New original-specification Bridgestone tyres The result is an example that presents to an extraordinary standard, mechanically fresh and cosmetically exceptional.

PERFORMANCE & ENGINEERING: 3.5-Litre Twin-Turbocharged V6 542 BHP 0–60 mph in approx. 3.6 seconds Top Speed: 217 mph (world's fastest production car at launch) Aluminium honeycomb chassis Rear-wheel drive 5-speed manual transmission Even today, the performance remains deeply impressive — but it is the car's sense of occasion, scale and rarity that truly set it apart.

WHY THIS XJ220 IS EXCEPTIONAL: Just 295 miles from new Believed to be the 72nd of only 281 built Highly desirable Right-Hand Drive example Delivered new in iconic Le Mans Blue Nearly £89,000 spent with leading marque specialists Arguably one of the lowest mileage examples in existence

SUMMARY: Chassis 829 represents an

extraordinary convergence of rarity, provenance, mileage and condition. With just 295 miles recorded, meticulous recommissioning by the world's leading XJ220 specialists, and a documented history, this car stands as a benchmark example of one of the 1990s' most important supercars. For the serious Jaguar or landmark supercar collector, opportunities such as this are exceptionally rare. Quite simply, this may be one of the finest — and lowest mileage — XJ220s in the world.
