Description

The Lamborghini Aventador LP700-4 marked a defining moment in Lamborghini's history, introducing an all-new naturally aspirated V12, carbon-fibre monocoque construction and a dramatic design that instantly became an icon. This 2012 example represents the early production Aventador in its purest form, combining Lamborghini's extraordinary 6.5-litre V12 with permanent all-wheel drive and a highly sophisticated electronic chassis. With its unmistakable wedge-shaped profile, scissor doors and thunderous exhaust note, the Aventador remains one of the most evocative modern supercars.
