2016(16) McLaren 675LT Spider

£359,975

Overview

Mileage	12,500 miles
Fuel Type	Petrol
Engine Size	3.8 l
Bodystyle	Coupe
Transmission	Automatic
Exterior Colour	Special Silica White
Previous Owners	5
Registration	BV16ZFY

Description

The McLaren 675LT Spider represents one of the most focused and desirable derivatives of McLaren's first-generation Super Series, combining extreme performance with the added theatre of an electrically retractable hard-top. Developed as the open-top counterpart to the celebrated 675LT Coupe, the Spider incorporated extensive weight-saving measures, revised aerodynamics and a more aggressive chassis setup to create a truly driver-focused supercar. This 2016 example is a particularly desirable specification, combining the formidable 3.8-litre twin-turbocharged V8 with McLaren's 7-speed Seamless Shift Gearbox, rear-wheel drive and the extensive lightweight and carbon-fibre specification expected of the Longtail name. With its aggressive Longtail bodywork, extended rear deck, carbon-fibre components and retractable hard-top, the 675LT Spider delivers a unique combination of outright performance, open-air driving and motorsport-inspired engineering. PERFORMANCE & DRIVETRAIN: 3.8-Litre Twin-Turbocharged V8 675 PS / 666 BHP 700 Nm Torque 0–62 mph in approximately 2.9 seconds 0–124 mph in approximately 8.1 seconds Top Speed: 203 mph 7-Speed Seamless Shift Gearbox (SSG) Rear-Wheel Drive McLaren ProActive Chassis Control Adaptive Dampers Launch Control Active Aerodynamics Track, Sport & Normal Driving Modes The 675LT's 3.8-litre twin-turbocharged V8 delivers devastating acceleration while retaining the responsiveness and character expected of a McLaren Longtail. With 675 PS and 700 Nm, the Spider is capable of extraordinary performance, while its sophisticated chassis systems allow the driver to exploit that performance with confidence. EXTERIOR SPECIFICATION: Special Silica White Paintwork Carbon Fibre Exterior Upgrade Package Stealth Package Front Bumper Endplate - Matte Carbon Fibre Front Splitter - Matte Carbon Fibre Rear Bumper - Matte Carbon Fibre Lower Side Intake - Matte Carbon Fibre Side Intake - Matte Carbon Fibre Side Skirts - Matte Carbon Fibre Diffuser - Matte Carbon Fibre Stealth Badge Set Electrically Retractable Hard-Top Roof Extended Longtail Rear Deck McLaren Titanium Sports Exhaust System Lightweight Forged Alloy Wheels - Stealth McLaren Carbon Ceramic Brakes McLaren Orange Brake Callipers Nose Lift LED Headlamps The 675LT's appearance is unmistakably purposeful, with its extended Longtail rear deck, enlarged aerodynamic surfaces and extensive use of exposed carbon fibre. Every element of the design was developed around increasing aerodynamic efficiency and reducing weight, giving the Spider an extraordinary road presence. INTERIOR SPECIFICATION: Carbon Black Alcantara Racing Bucket Seats (Touring) Full Carbon Black Alcantara Interior Mclaren Orange Seatbelts Carbon Fibre Sill Panel with McLaren Logo Carbon Fibre Interior Trim Carbon Black Alcantara Steering Wheel McLaren Orange Contrast Stitching Branded Floor Mats Air Conditioning Dual-Zone Climate Control McLaren IRIS Infotainment System Meridan Sound System Soft Close Doors The cabin of the 675LT Spider follows the same philosophy as the exterior, combining high-quality materials with an uncompromising focus on reducing weight. Carbon fibre and Alcantara dominate the interior, while the lightweight racing seats provide an unmistakably motorsport-inspired environment. CHASSIS & ENGINEERING: The 675LT was engineered around McLaren's lightweight carbon-fibre MonoCell, with extensive development focused on reducing mass, increasing downforce and sharpening the driving experience. The Spider retains the core philosophy of the Longtail concept while adding the ability to enjoy the V8 soundtrack with the roof lowered. Carbon Fibre MonoCell Lightweight Aluminium Body Structure Lightweight Suspension Components McLaren ProActive Chassis Control Adaptive Damping Revised Longtail Aerodynamics Active Rear Wing High-Downforce Front Splitter Carbon Ceramic Braking System Rear-Wheel Drive Variable Drift Control Track-Focused Chassis Calibration The result is an exceptionally agile supercar with remarkable steering response,

immense mechanical grip and a level of aerodynamic performance rarely found in an open-top road car. TECHNOLOGY & EQUIPTMENT: McLaren IRIS Infotainment System Nose Lift System Satellite Navigation Bluetooth Connectivity Reversing Camera Front & Rear Parking Sensors Soft Close Doors Electrically Retractable Hard-Top Launch Control Active Aerodynamics McLaren ProActive Chassis Control Track, Sport & Normal Modes Adaptive Suspension Carbon Ceramic Brakes Dual-Zone Climate Control Cruise Control Tyre Pressure Monitoring System ADDITIONAL DETAILS: Year: 2016 Model: McLaren 675LT Spider Engine: 3.8-Litre Twin-Turbocharged V8 Drivetrain: Rear-Wheel Drive Mileage: 12,500 Miles Owners: 5 Previous PPF: Full Paint Protection Film Service History: Full McLaren Service History (will be serviced) Warranty: 2 Years McLaren Warranty (2028) Condition: Exceptional Price: £359,975 The McLaren 675LT Spider is one of the most celebrated driver-focused McLarens of the modern era. Its combination of a 675 PS twin-turbocharged V8, carbon-fibre MonoCell, Longtail aerodynamics, carbon ceramic brakes and lightweight construction created a car that sits firmly within McLaren's most desirable road-going models. The addition of the retractable hard-top makes the Spider particularly special, allowing the driver to experience the extraordinary performance and soundtrack of the 675LT with the roof open, while retaining the immense capability of the Longtail platform. With its extensive carbon-fibre specification, lightweight racing seats, Longtail bodywork, active aerodynamics and 203 mph capability, the 675LT Spider represents the perfect combination of McLaren's track-focused engineering and open-top supercar theatre.
