Description

In January 1990, Lamborghini introduced their latest mid-engined, performance sports car, and carrying on their tradition of naming its cars after legendary fighting bulls, an example raised by the Duke of Veragua in the 19th century known as "Diablo". The Diablo SV was the first time since the Miura Super Veloce that these initials had been used and this model differed from earlier Diablos having an increased power output (510bhp), larger front brakes, an adjustable spoiler and three piece wheels The two door, rear wheel drive, mid-engined coupe was powered by a 5.7 ltr, V12, 5-speed manual transmission, resulting in a 0-60 time of 4.5 seconds and a top speed of 202 mph.. This right hand drive Diablo SV UK car finished in Gallio Yellow and full black leather interior has a great history and service records from main dealers and has had a full body re-paint in 2016 to make this example one of the finest available for sale.
